9. Rule changes/updates & clarifications

raised about unfair advantage of experienced teams having knowledge of the tracks to allow navi to stay out, discussed that there are advantages and disadvantages and everyone has the chance to walk tracks.

Decisions

Reword 2 isolators to 2 separate isolator systems.

Voted affirmative to remove winch dampener with an added scrutiny to tree trunk protectors and setting Tree Trunk Protector at 12,000kg min

raised about unfair advantage of experienced teams having knowledge of the tracks to allow navi to stay out, discussed that there are advantages and disadvantages and everyone has the chance to walk tracks. Decided to not add this as a rule

10. New General Business

rollcage - discussion with registration, FEA analysis shows current min spec cage cannot withstand the loads endured in a rollover. It would be negligent of the CCDA to allow a lower spec car in new class/production class car.

Production class rules to be put up for discussion

10.1 Alcohol policy not working

bretho at drivers briefing only, if blow over 0.00 reading and time is logged on competitor list. Competitor must blow 0.00 within 30 minutes of logged time or no racing for that day. If 0.00 then race as normal without penalty.

All drivers must be logged on a competitor list each day, any teams not showing or over limit must be immediately communicated to event organiser. effective immediately.
